

# Sparkasse app: Making a bank transfer using pushTAN

The following instructions apply to the iOS operating system. The procedure may vary slightly for other mobile phone operating systems.

- 1** Start the Sparkasse app by tapping the **app icon** and then entering your password.

- 2** On the home page, tap the **“Geld senden”** icon. You then have three options for entering transfer details.

- 3** Select a recipient under **“Vorlagen”** or enter the data into the transfer form.

**Tip:** If you have previously transferred money to or received money from the recipient, the recipient details will automatically appear.

Then tap **“Senden”**. Now switch to the S-pushTAN app (step 5).

You can also enter the transfer as follows:

- 3.1** Using the **photo option**: Tap the **“Foto”** icon. Photograph your invoice. The data is transferred to the transfer template. It is vital that you check the data. Continue with steps 4 and 5.

- 3.2** Using a **QR code**: Tap the **“GiroCode”** icon. Scan the QR code. The data displays automatically in the transfer template. Continue with steps 4 and 5.

- 4** Your transfer details are now displayed. Tap **“Senden”**.  
Now switch to the **S-push TAN app**.

- 5** Check the transfer details against the original documents, e.g. invoice.  
Then tap on **“Auftrag freigeben”**. Done.  
Your transfer has been sent.
